Lake News by David Sanko

Welcome to the lake in 2017! The lake so far in 2017 has been on a roller coaster ride. January the lake was mostly open water with just a little bit of ice. February brought a week of warm weather and 18 fish being caught. Even though in March the weather went back to winter there were 47 fish caught near the end of March. Finally, it started to get warmer in April with the fish becoming more active. There were 163 bass, 219 bluegills, and 9 crappie caught.

2017 January - April
Year -To-Date Totals:
Bass 194
Bluegill 239

Perch 0
Crappie 13
Catfish 0
Shellcracker 0

Even though the best thing is fishing, the return of the birds is not bad. The 6 red wing blackbirds sing a lovely song if you just listen.

The weekend of May 6, copper sulfate was applied to the lake to control the algae, it should have immediate results.

On a recent fishing trip to the lake, I picked up a bottle of water, two coffee cups, fishing line, a broken lighter, a package of baby wipes, a lure box, a plastic bag, and a worm container. "Please"...put your trash in the barrel as you sign out. Thank You!

Some things to do and remember for the upcoming year are:

Please sign the fishing log book on your arrival and log out on your departure.

Guest need to pay the \$10.00 per day fee.

The limit on Pan Fish is 15 per day individual or family membership.

Bass fishing is Catch and Release from May 1 to June 30.

If you would be willing to help at the lake, my email is sanko@att.net and use lake as the subject. Hope to see you at lake and good fishing.

Fall Trap League: September 5 thru November 14, 2017

Compulsory Lewis option added to each week and shooters must participate with entire team to be included in the Lewis for that week. \$16.00 per shooter weekly plus a one time \$10.00 league fee.

League shooting can be done on Tues, Wed, Sat or Sun. A team is 5 shooters. Each week you will shoot 50 targets, 25 on the 16yd and 25 handicaps. Handicap is determined for the team by taking the average of all 5 scores. Any scores below 19 will shoot on the 19yd line. All other s will shoot the averaged score

Contact Sheri @ 330-416-9786 or Taylor @ 330-327-8003 for details.

A brief history of the Mosin- Nagant Military Rifle

The Mosin-Nagant rifle is the legendary Russian predecessor of the more modern AK-47. It was designed as a five shot, bolt action repeating rifle. The rifle was designed in 1891 by Captain Sergei Mosin and Leon Nagant. This rifle is considered to be one of the top 10 most successful bolt action rifles in modern history. Nearly 40 million rifles, chambered in 7.62 x 54 R, were manufactured in Russia from 1882 to 1891. It was so popular at the time that Finland, England, United States and a few other countries began manufacturing this rifle as well. Production of this rifle continued in some fashion up until 1965.

The Mosin-Nagant rifle was produced in many different models: M91, M91 Dragoon, M07 Carbine, M91 / 30, M91 / 30 PU Sniper, M38, M44.

The Mosin-Nagant was a popular sniper rifle. Some interesting history of Russian snipers that used this modification are shown below as quoted from an article in The Truth about Guns. I didn't fact check there information so take it for what it's worth.

"Sniper Vasily Zaytsev, fictionalized in "Enemy at the Gates," used scoped Mosin-Nagants to snuff 242 Wehrmacht Soldaten in four months. His sniper girlfriend, Tania Chenaya, (who may or may not have looked anything like Rachel Weisz) gave at least 80 Germans a dirt nap with her own Mosin-Nagants.

Lyudmilla Pavlichenko was even more effective: she and her Mosin-Nagants had 309 confirmed kills.

Even these Russian diehards couldn't keep up with Finnish sniper Simo "White Death" Hayha. He killed 505

Soviet soldiers in just 100 days during the Winter War of 1939-40, using only his Finnish-made Mosin and its iron sights."

This rifle is very popular with collectors and is relatively cheap to purchase due to the large volume that was manufactured. It is still used in some conflicts around the world.

If you are a collector of this iconic rifle the following web site can be helpful to determine the country of origin and specific model.

7.62x54r.net/MosinID/MosinID.

Imports bans on firearms negatively impact our freedom to purchase these relics of the past and consequently push the prices higher. The NRA fights for our freedom to own these rifles and all other firearms. You can help them continue their fight by becoming a member today.

The NRA BUNKER continued

Please consider joining the 5 million members who now belong to the NRA. Your membership supports our North Lawrence Fish & Game Club but more importantly you will be supporting all of our second amendment rights. Please remember that **“The NRA needs YOU”** because we grow one member at a time. Don't think that your membership is too small to matter. Join today and join the other 5 million members of the NRA.

NRA Membership

Information:

The NRA offers good deals on new memberships from time to time. They have been offering new member-

ships at discounted prices for one, two, three and five year terms. Multiple years of new membership is a great deal because you secure the bargain price over each of those years.

They almost always offer \$ 35 of credit for future purchases if you sign up for an NRA credit card. The credit offsets the fee for a one year membership... so it is actually free.

In addition, you get lots of free stuff, including insurance on your firearms and a magazine subscription.

Don't like the junk mail from the NRA?

Remember, you can call the NRA and tell them not to send you

promotions and you won't get all the junk mail. Please be sure to use the NLFG club member number, which is shown below, for mail in applications. If you prefer to sign up on the internet, then go to the NLFG website (do not log in) and click on the NRA link at the bottom of the web page. The NLFG club number will be automatically applied with this link so that our club will be credited for your NRA membership. Check out their website for details.

If you have questions about membership, please call Ed Harhager at 330-837-8015

Take A Kid Along! - by Dennis Earl

About this time of year in 1947 my grandfather said I'm going sucker fishing down on Newman Creek, want to go along?

A few years later at my Uncle Bob's place he said I'm going groundhog hunting, want to go along?

1953 Dad and a friend were going rabbit hunting. Dad said; how about I take my boy with us?

1955 Had my very own Stevens .22 rifle and my Uncle Lester asked me to go along with him squirrel hunting.

Uncle John didn't like to go fishing by himself, so usually he took my cousin and me along.

These are just a few of many trips with Grandpa, Dad, and my Uncles. They took a kid along.

PS - Next time you go hunting or fishing preserve our heritage; "Take A Kid Along!"

North Lawrence Action Pistol Match Dates

June 17, 2017
July 15, 2017
August 19, 2017
September 16, 2017

9:00am—12:30 pm

Similar to previous years, online registration is available through Practiscore in the following link. You're encouraged to take advantage of the online registration to facilitate a faster registration process on match dates. I hope to see you all at the range.

Regards,
Martin Lei
