

MINUTES OF NORTH LAWRENCE FISH & GAME RETIREES CLUB

JANUARY 5, 2023

The Jan. 5, 2023 meeting of the North Lawrence Fish & Game Retirees Club was called to order with the Pledge of Allegiance and an opening prayer to 22 members.

Meeting was opened by President Jeff Barnhart.

Ed informed the membership that the new gas line was installed and we can expect uninterrupted heat. The pressure tank has been replaced. He also indicated that there is a possible problem with the furnace in the scout house.

Paul displayed two M-1 rifles. He has cleaned them and suggested the sale of them with the funds going to the support of the rifle and pistol range. There were also 5 M-1 carbines which were inspected by Bob. After an intense and lively discussion it was decided to inform the board and membership of our above thoughts.

Show and tell was a WWII German 22 cal. youth training rifle. Paul described the process of cleaning the M-2 rifles. Jeff showed his display of muzzle loading rifles, one of them being made outside of Wadsworth. Bob showed the members a beautiful folding stock M-1 carbine with a deployment case/holster. It is truly a rare and uncommon weapon from WWII. Ed brought in a percussion lock muzzle loading rifle which he built with set triggers on it. Next month's show and tell will be knives.

All members should beware that next month's meeting will be starting at 9:00 A.M. rather than at 10:00 to celebrate Groundhog Day. The festivities will include a breakfast and shooting match. Be sure to come!

Minutes recorded by Temporary Secretary, Garland Parsons
